

HOW TO REGISTER AND BECOME AN IEEE MEMBER

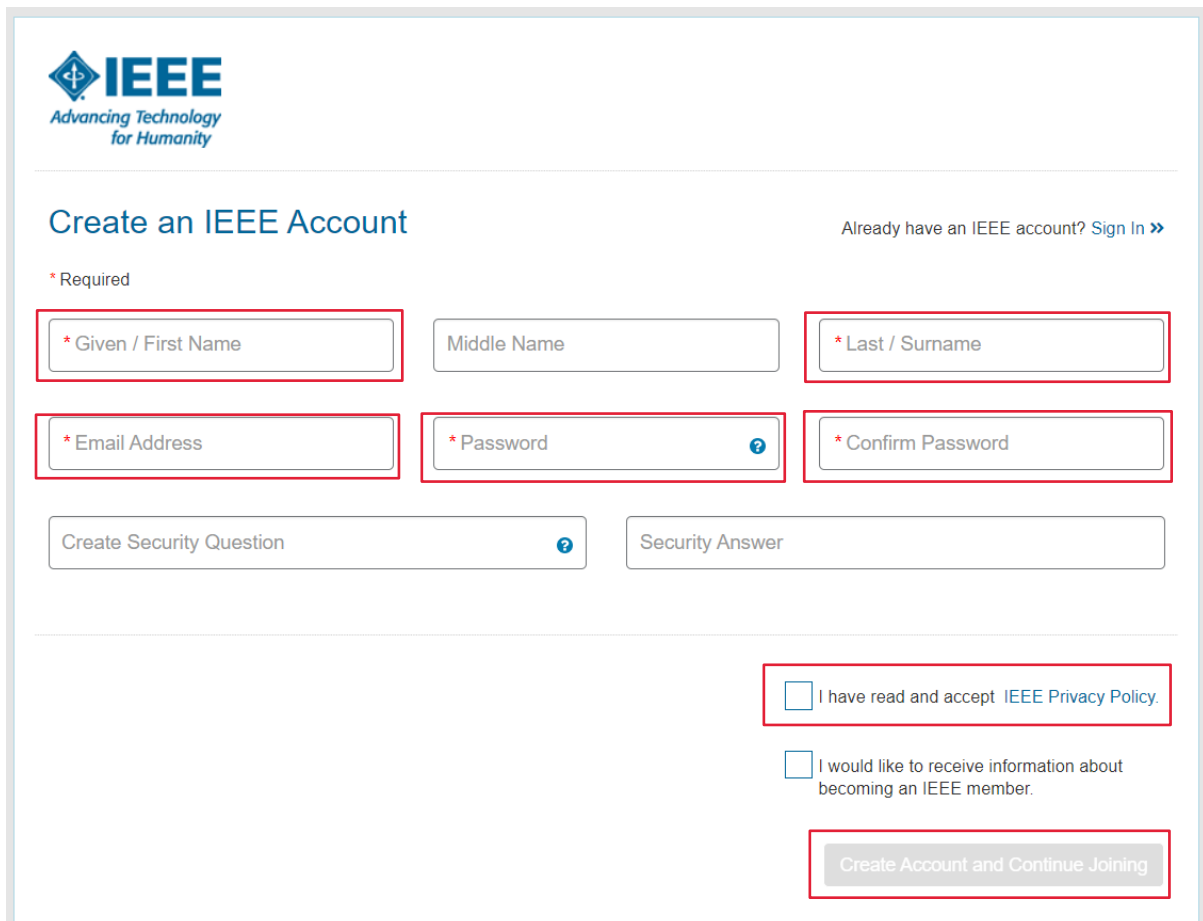

General Guidelines

- If you have no IEEE Membership follow from Step
- If you have IEEE Membership and want to take society memberships then follow from Step 8

Step 1:

Visit The Site and Register with Your Details –

<https://www.ieee.org/profile/public/creatwebaccount/showCreateAccount.html?car=IEEE-MemApp&url=https%3A%2F%2Fwww.ieee.org%2Fmembership-application%2Fjoin.html%3Fgrade%3DStudent&signinurl=https%3A%2F%2Fwww.ieee.org%2Fmembership-application%2Fjoin.html%3Fgrade%3DStudent>

The screenshot shows the IEEE 'Create an IEEE Account' page. At the top left is the IEEE logo with the tagline 'Advancing Technology for Humanity'. The title 'Create an IEEE Account' is on the left, and a link 'Already have an IEEE account? Sign In >>' is on the right. Below the title, a red asterisk indicates required fields. The form contains several input fields: 'Given / First Name', 'Middle Name', 'Last / Surname', 'Email Address', 'Password' (with a help icon), 'Confirm Password', 'Create Security Question' (with a help icon), and 'Security Answer'. At the bottom right, there are two checkboxes: 'I have read and accept IEEE Privacy Policy.' and 'I would like to receive information about becoming an IEEE member.' Below these is a 'Create Account and Continue Joining' button.

Step 2:
Enter the Verification Code After Checking Your Mail

Email Verification

A verification code has been sent to [REDACTED]@gmail.com

Note: Check your spam folder if you do not receive a verification code within a couple of minutes.
If you did not receive the code, select the Resend Code button below to continue.

Step 3:

Visit the Membership Page of IEEE :

<https://www.ieee.org/membership/join/index.html>

and select the join as a student option

When you join IEEE, you:

- Join a community of more than 450,000 technology and engineering professionals united by a common desire to continuously learn, interact, collaborate, and innovate
- Access the resources and opportunities you need to keep on top of changes in technology
- Network with other professionals in your local area or within a specific technical interest
- Mentor the next generation of engineers and technologists

Join now and gain immediate access to all the valuable benefits and features of IEEE membership.

Step 4:

Fill in the college details of our college same as in the image no change should be done, the organization name is very important

Contact and profile information

Your primary address will be used for membership mailings, subscriptions, and local section assignment. Please note that primary address changes, such as country, could affect availability of some products and services.

You will be taken to this page, here you can either click society/council/special Interest membership and select desiring society/council/special Interest group or you can directly search the name as shown in picture on next page.

SBCs in our college

- **Signal Processing Society:** Advances signal processing techniques for communications, audio, image, speech, radar, and biomedical applications.
- **Computer Society:** Connects students with global computing professionals to exchange ideas and learn from each other.
- **Women In Engineering:** Global network promoting women engineers and inspiring girls to pursue careers in engineering and technology.
- **Circuits and Systems Society:** Dedicated to advancing the theory, analysis, design, and practical implementation of circuits and systems.
- **Sensors Council:** Supports interdisciplinary sensing, IoT, robotics, and embedded systems initiatives while enabling student collaboration with research and industry partners.

Note there are many societies/councils/special Interest groups in IEEE, you can choose them if you want.

IEEE Signal Processing Society Membership

Signal processing is the enabling technology for the generation, transformation, extraction, and interpretation of information. It comprises the theory, algorithms with associated architectures and implementations, and applications related to processing information contained in many different formats broadly designated as signals. Signal processing uses mathematical, statistical, computational, heuristic, and/or linguistic representations, formalisms, modeling techniques and algorithms for generating, transforming, transmitting, and learning from signals. The Society sponsors various conferences, including the International Conference on Acoustics, Speech, and Signal Processing. If you wish to purchase additional copies of publications included in your membership, please visit the IEEE Contact Center.

Societies offer an electronic-only membership option at a reduced rate for individuals who reside in developing countries. You will receive electronic/digital versions of your publications. Reduced fees such as unemployed, retired or minimum income are not available for the Essential package, but may be applied to the Preferred package.

All IEEE society members get a free individual subscription to IEEE DataPort.

Join more than one IEEE Society and receive a 5% discount.

Please refer to the chart below to compare the membership options.

As a member of the Society, you will receive communications about networking opportunities, conferences, meetings, special events, other member benefits, and more.

Next Preferred to “(essential)” membership as shown in the below image and one done click add items.

Note: By default, in some societies, the preferred option is enabled which is of high cost, so change it to essential which cost only less amount.

Generally, many of the societies has a single pricing.

Note: All council membership is free, WIE, SIGHT, Circuits and Systems Society is also free.

STEP 9:

You see your webpage as shown below, click continue and just check your cart if both the IEEE membership and society memberships has been selected and the net total amount is shown as case of Full year membership and for half yearly it nearly around half the rate.
